THE POWER OF PLANTS: PLANT-BASED INNOVATION FOR SKIN, HAIR AND BODY

Plant-based beauty has gained significant momentum over the years, and as consumer interest in veganism continues to rise, new product development opportunities are rife. In this special edition, we will take an up-close look at the power of plants in skin, hair and body care, spotlighting scientific potential for actives, extractions and smart sourcing, and also look at some of the innovations on the market. We'll also consider how future development in this field might evolve to align with evolving consumer expectations worldwide and where the biggest opportunities are across the category.

SENSORY INNOVATION: FRAGRANCES, TEXTURES AND EXPERIENTIAL BEAUTY

Sensory innovation has long been high up the beauty agenda, driven by the desire to fully engage and immerse beauty consumers in products and routines. But as health and wellbeing continue to rise in importance, are there fresh opportunities for sensory beauty innovation? In this special edition, we'll look at the raft of fragrance and formula innovation already on the market and consider how beauty is increasingly focused on experience. We'll also highlight key opportunities in this space and look at how these tie into wider consumer and market trends.

NEW FRONTIERS IN BEAUTY (GLOBAL)

Beyond the mainstream, a spectrum of specialised niches is flourishing. From taboo beauty to 'ugly' beauty, brands are carving their unique path in the cosmetics industry. Their consumers are those looking for solutions that stretch beyond ageing or acne. Instead, they are seeking expert help on areas such as intimate feminine care or melanin-rich skin care solutions. This unexplored future landscape represents opportunities to meet the less-talked-about needs and concerns of the modern beauty consumer – ultimately creating new categories in beauty. In this webinar join us and our industry experts as we explore the new frontiers in beauty and discover how cosmetic innovation can meet previously unforeseen needs and desires.

BEAUTY FROM WITHIN

When it's a scoop of collagen in your morning coffee, or a biotic capsule to thicken your locks, there is no shortage of ingestible products promising to improve your glow from the inside out and the beauty-from-within space is radically changing the way consumers think about their beauty regime. But what does the science say? And how much can products claim on pack? In this joint webinar, CDE and NIE will bring together experts from across the industries to paint a picture of how far the science and the solutions in this space have come. We will look into where the most exciting opportunities are in this market today, according to the latest science, the market demand, and the white spaces.
